

FINALLY THERE IS AN EASY TO PUT UP WINDBREAKER WITH FULL VIEW!

DIG&SIT HAVE THOUGHT OF ANOTHER (WORLDWIDE) GROUNDBREAKING PRODUCT: THE DIVIDER.

THE DIVIDER DIFFERS FROM OTHER WINDBREAKERS IN ITS UNIQUE SHAPE AND ESPECIALLY BECAUSE OF THE EASY WAY OF PUTTING IT UP WITHOUT THE USE OF ANNOYING GUY-ROPES!

HOW DOES THIS WORK? THERE ARE 3 SLANTING STRIPS OF FABRIC (COATED NYLON). THE FIRST STRIP IS FASTENED TO THE GROUND WITH A PEG AT THE END (A LITTLE HAMMER IS INCLUDED) AND THERE AFTER THE OTHER STRIPS ARE FASTENED TO THE GROUND. FINALLY THE ALUMINIUM POLE IN THE MIDDLE IS INSERTED INTO THE FABRIC AND THE TIGHTENING ROPES ON TOP ARE SECURELY FASTENED AND: ALL DONE!

MORE ADVANTAGES:

BECAUSE OF THE SLANTING SHAPE, IT IS EASIER TO ENJOY THE VIEW AND KEEP AN EYE OUT FOR THE KIDS. THERE IS ALWAYS A SHADOW SIDE AND AN EXTRA POCKET FOR BEACH EQUIPMENT. YOU STILL WANT TO BE ON THE BEACH DURING WIND FORCE 5? NO PROBLEM!

THE PRICE OF THE DIVIDER IS EURO 89,- (INCL. TAX) AND WILL BE AVAILABLE (SOLELY IN YELLOW) AT THE BETTER SPORTS SHOPS, LIFESTYLE/DESIGNSHOPS.

FEBRUARY 8TH THE DIVIDER WILL HAVE ITS INTERNATIONAL PREM ON THE AMBIENTE FAIR IN FRANKFURT, HALL 5.1 D07.
